

**NEBULIZER AND COMPRESSOR 雾化器和压缩雾化吸入机**

FROM MEDKE IN SHENZHEN 源自 深圳•曼克

All ME Nebulizers are designed to be efficient and easy to use with high quality and great price based on the principle of air flow. Its Nebulizers are compatible with most of compressors and air source. Patients are more comfortable because of light weight of material while treatment. Avoid cross-contamination by single patient use.

The TOR (Total Output Rate) is more 350mg/min and particles are small as 3.0um MMD that is more 75%.

ME 型雾化器根据气体流动原理设计，产品效率高，使用简单，性价比高。能够兼容市面上大部分的压缩雾化吸入机及供氧气源。产品轻巧，让病人治疗时更轻松。单病人使用，防止交叉感染。

总输出量 (TOR) 达到 350 毫克/分钟，总体中位直径 (MMD) 接近于 3.0 微米，直径 < 5um 的雾粒浓度超过 75%。
